BACKGROUND INFORMATION

The Department of Animal Production is one of the oldest department of the University of Nairobi. The department offers courses in Animal Production to both the undergraduate of the Faculties of Agriculture and Veterinary Medicine. It provides training, research and consultancy services in the following areas: Principles of Animal Production, Principles of Animal Production, Principles of Animal Nutrition, Principles of Genetics, Production of Ruminant Animals, Production of Non-Ruminant Animals, Animal Feeds and Feeding, Setting up of Commercial feed factories, Commercial Poultry Production Units, Commercial Dairy Production Units, Feed Formulation and Feeding Programs. The Department offers the following services: Formulation of animal feeding standards, Bull evaluation for the National Artificial Insemination Service, Participation in various livestock related national committees, Evaluation of genetic worth of livestock species, Genetic Finger Printing (PCR), establishment of herd/flock inbreeding level, planning of genetic improvement programme and short-term training on specific topics.

The department is headed by a Chairman, appointed by the Vice-chancellor in consultation with the Principal and the Dean(s), Faculties of Agriculture and Veterinary Medicine and has three sections:

(i) Animal Genetics and Breeding
(ii) Animal Nutrition and Feed Resources
(iii) Livestock Production Systems

It makes recommendations to Faculty College and University Management on students’ academic progress teaching, syllabi and examinations as well as personnel and other resources for the conduct of all the academic programs.

The department of Animal Production spells out the scope and standards of service rendered to students, partners, staff, clients and stakeholders. We are committed to the provision of Quality Service to our clients and stakeholders. In this Service Charter, we have set our commitment to you, and highly welcome feedback on improving our services.

Vision
